TURBO STATIONAIR HD
Meet versatility. Meet the Cessna® Turbo Stationair® HD aircraft. Pushing the limits of what is possible, the Turbo Stationair HD doesn’t make you choose between necessity and aspiration. This heavy hauler complete utility aircraft expands your missions to take you almost anywhere, with rough, short-field capabilities and optional floats configuration.
**TAKING PERFECTION ONE STEP FURTHER**

**IMPROVED VISIBILITY**
With the highly visible LED landing lights, all-weather obstacle recognition technology and yawing ground evolution.

**LOWER TOUCHDOWN SPEEDS**
Large powerful flaps on all speeds make takeoffs and landings simple even in rough terrain.

**NEXT GENERATION AVIONICS**
Garmin™ G1000™ NXi avionics provide a brand new cockpit interface with enhanced graphics, faster hardware, new features and optional wireless connectivity.

**TURBOCHARGED ENGINE**
A robust 310 horsepower turbocharged engine makes for smoother, quicker climbs of altitudes up to 26,000 ft.

**FLEXIBILITY TO LAND NEARLY ANYWHERE**
Heavy-duty landing gear designed tough for landing on semi-prepared landing surfaces with optional oversized tires. Easily removed for conversion to amphibious floats.

**CARGO READY**
Effortless loading and unloading of payload through multipurpose cargo doors.

**BREATHE EASY**
With integrated oxygen at high altitudes when flying in turbocharged comfort.

**HEAVY LIFTING**
Handle heavy hauls with a maximum payload of 1,623 pounds.

**PREPARED FOR COLD WEATHER**
Set the perfect RPM and reduce ice during all phases of flight with the heated, constant speed propeller.

**SEATING FOR SIX**
The Turbo Stationair HD comfortably seats six with five configuration options, while offering the ability to remove and fold down seats for optimal space.

**FUTURE PROOF**
EV ready for electrification on a timeline to be announced with options for a brushless or direct drive motor.
SUPERIOR FORM MEETS FUNCTIONALITY

The sleek simplicity of the Turbo Stationair HD’s rugged cabin will certainly impress. Adaptable by design, spacious seating for six offers plenty of room with the option to fold down or remove seats for even more space, giving you the freedom to make every mission unique. The Turbo Stationair HD offers built-in oxygen and seatbelt airbags, along with 12-volt power ports to allow passengers to work or be entertained for the duration of the trip.
The Turbo Stationair HD is powered by the latest technology in integrated cockpit avionics, the Garmin™ G1000™ NXi. With an improved graphical interface, more powerful hardware, higher resolution displays, added functionality to improve situational awareness and optional wireless technology, managing the flight deck has never been easier.

**NEW FEATURES AND OPTIONS**
- Standard ADS-B Out and In
- Optional wireless database and flight plan loading
- Integrated VFR Sectional Charts
- IFR High and Low Charts with Night Mode
- Enhanced HSI features
- COM frequency decoding
- Vertical Situation Display
- Selectable Visual Approaches
- Optional Surface Watch for runway safety
- Enhanced graphics and faster processing
- Improved joystick with smoother panning
- Simplified maintenance
When a job needs to get done, the Cessna Turbo Stationair HD is your greatest ally. Whether your mission calls for MedEvac, search and rescue or aerial surveillance, this heavy hauler completes each mission with comprehensive dependability despite rugged or remote landing conditions. Spacious with a heavy payload, the Turbo Stationair HD is perfect for hauling military or medical equipment or evacuating the wounded or ill. Working hard without breaking a sweat, this versatile Cessna is at your side.

---

**ADVENTURE UNLEASHED**

**RUNWAY OPTIONAL**

Engineered to keep up with your ambitions, whether it’s a weekend adventure or big business, the Turbo Stationair HD handles it all. Rough, short field landing capabilities and 127 cubic feet of cargo space allow you to go more places with fewer boundaries. Don’t be limited to the runway — the Turbo Stationair HD can easily be configured for amphibious floats, taking you places other aircraft can only see shadows.

**SPECIFICATIONS**

**TURBOCHARGED HEAVY LIFTER.**

**GO EXPLORE.**

Make the most of your missions. With unmatched performance and flexibility, the Turbo Stationair HD is your ticket to a world of untapped adventure and prosperity.
Textron Aviation’s extensive engineering and manufacturing resources provide you with a worldwide network of technical support experts and maintenance solutions.

Field service representatives from Textron Aviation are equipped with extensive technical manuals and detailed vendor documentation to answer your questions.

More than 350 authorized service facilities around the world are uniquely qualified to service your piston aircraft.

Our inventory carries more than $150 million in piston parts with a 99.6 percent same-day ship rate to keep your aircraft flying.

Fly with confidence knowing you’re backed by the most capable service and support network in general aviation.

TXTAVsupport.com Pubs.txav.com

THE LARGEST AND MOST CAPABLE SERVICE NETWORK
Textron Aviation brings smart innovation to the market — leveraging the latest technology in our industry-leading Beechcraft®, Cessna and Hawker® aircraft — a cornerstone of 90 years of performance. Together, Cessna and Beechcraft account for more than half of all general aviation aircraft flying, having delivered more than 250,000 aircraft that exceed 100 million flight hours and operate in more than 143 countries. In the last five years, 10 new Textron Aviation aircraft products have been certified and delivered. From Citation® jets, the world’s best-selling business jets, to the class-leading King Air® and Caravan® turboprops to the Cessna TTx® advanced piston performer, Textron Aviation leads the industry with the broadest product portfolio and the largest aircraft service network in the world.
