

SKYLANE

A PERFECT TRANSITION

There is a moment when you go from simply having your pilot's certificate to being a pilot. It's a transition you feel in your gut, and once you've made a 230-horsepower climb in a Cessna® Skylane® aircraft there's no going back. A forgiving high-wing design and durable airframe provide impressive performance, powerful capability and low operating and acquisition costs. The proven Cessna Skylane is carefully designed to make it easy to go fly and enjoy the journey.

RESILIENT AIRFRAME

Both inside and out, from anti-corrosion treatment to strengthened glass, the Skylane is renowned worldwide for its durability.

CONSTANT SPEED PROPELLER

Setting power is easy with a fully adjustable three-blade McCauley[®] propeller for optimal performance in all phases of flight.

RUNWAY FLEXIBILITY

Depart in less than 800 feet at maximum takeoff weight, and enjoy visiting more destinations with shorter runways.

HIGH PERFORMANCE POWERPLANT

A proven 230 horsepower Lycoming engine delivers smooth climbs and high cruise speeds for cross country travel.

NEXT GENERATION AVIONICS

Garmin[®] G1000[™] NXi avionics provide a brand new cockpit interface with enhanced graphics, faster hardware, new features and optional wireless connectivity.

PAYLOAD PRODUCTIVITY

Handle heavy loads and more fuel with seating for four and a maximum useful load of 1,145 pounds.

IMPROVED VISIBILITY

With the highly reliable LED landing and recognition lights, which utilize pulse recognition technology and providing great illumination.

RUGGED LANDING GEAR

Heavy-duty landing gear is designed extra tough for peace of mind while operating on semi-prepared runways.

EASY ACCESS

Two doors and a sturdy high wing design allow for convenient entry and loading for pilot and passengers, rain or shine.

BRING EXTRA BAGS

Easily access the generous aft baggage area through its own door, where you can quickly load up to 200 pounds of luggage and gear.

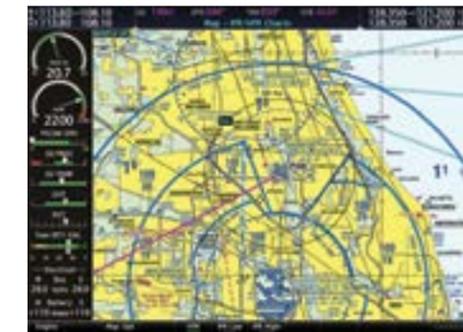

COMFORT FOR CAPABILITY

Settle into the left seat of a Cessna Skylane, and you'll find deep-contoured leather seats, ergonomically designed to deliver optimal comfort, even on the longest flights. Cabin air controls with enhanced ventilation sustain consistent cockpit temperature, while advanced soundproofing creates a quiet and comfortable environment.

Wraparound windows and a high-wing design allow both passengers and pilot to enjoy panoramic views of the landscape, no matter which seat they choose. The Cessna Skylane also keeps passengers comfortably charged with a standard 12-volt power outlet for laptops and mobile devices for unlimited work or play during flights.

COMMAND THE NEXT GENERATION

The Skylane is powered by the latest technology in integrated cockpit avionics, the Garmin G1000 NXi. With an improved graphical interface, more powerful hardware, higher resolution displays, added functionality to improve situational awareness and optional wireless technology, managing the flight deck has never been easier.

G1000 NXi

Enhanced HSI Functionality

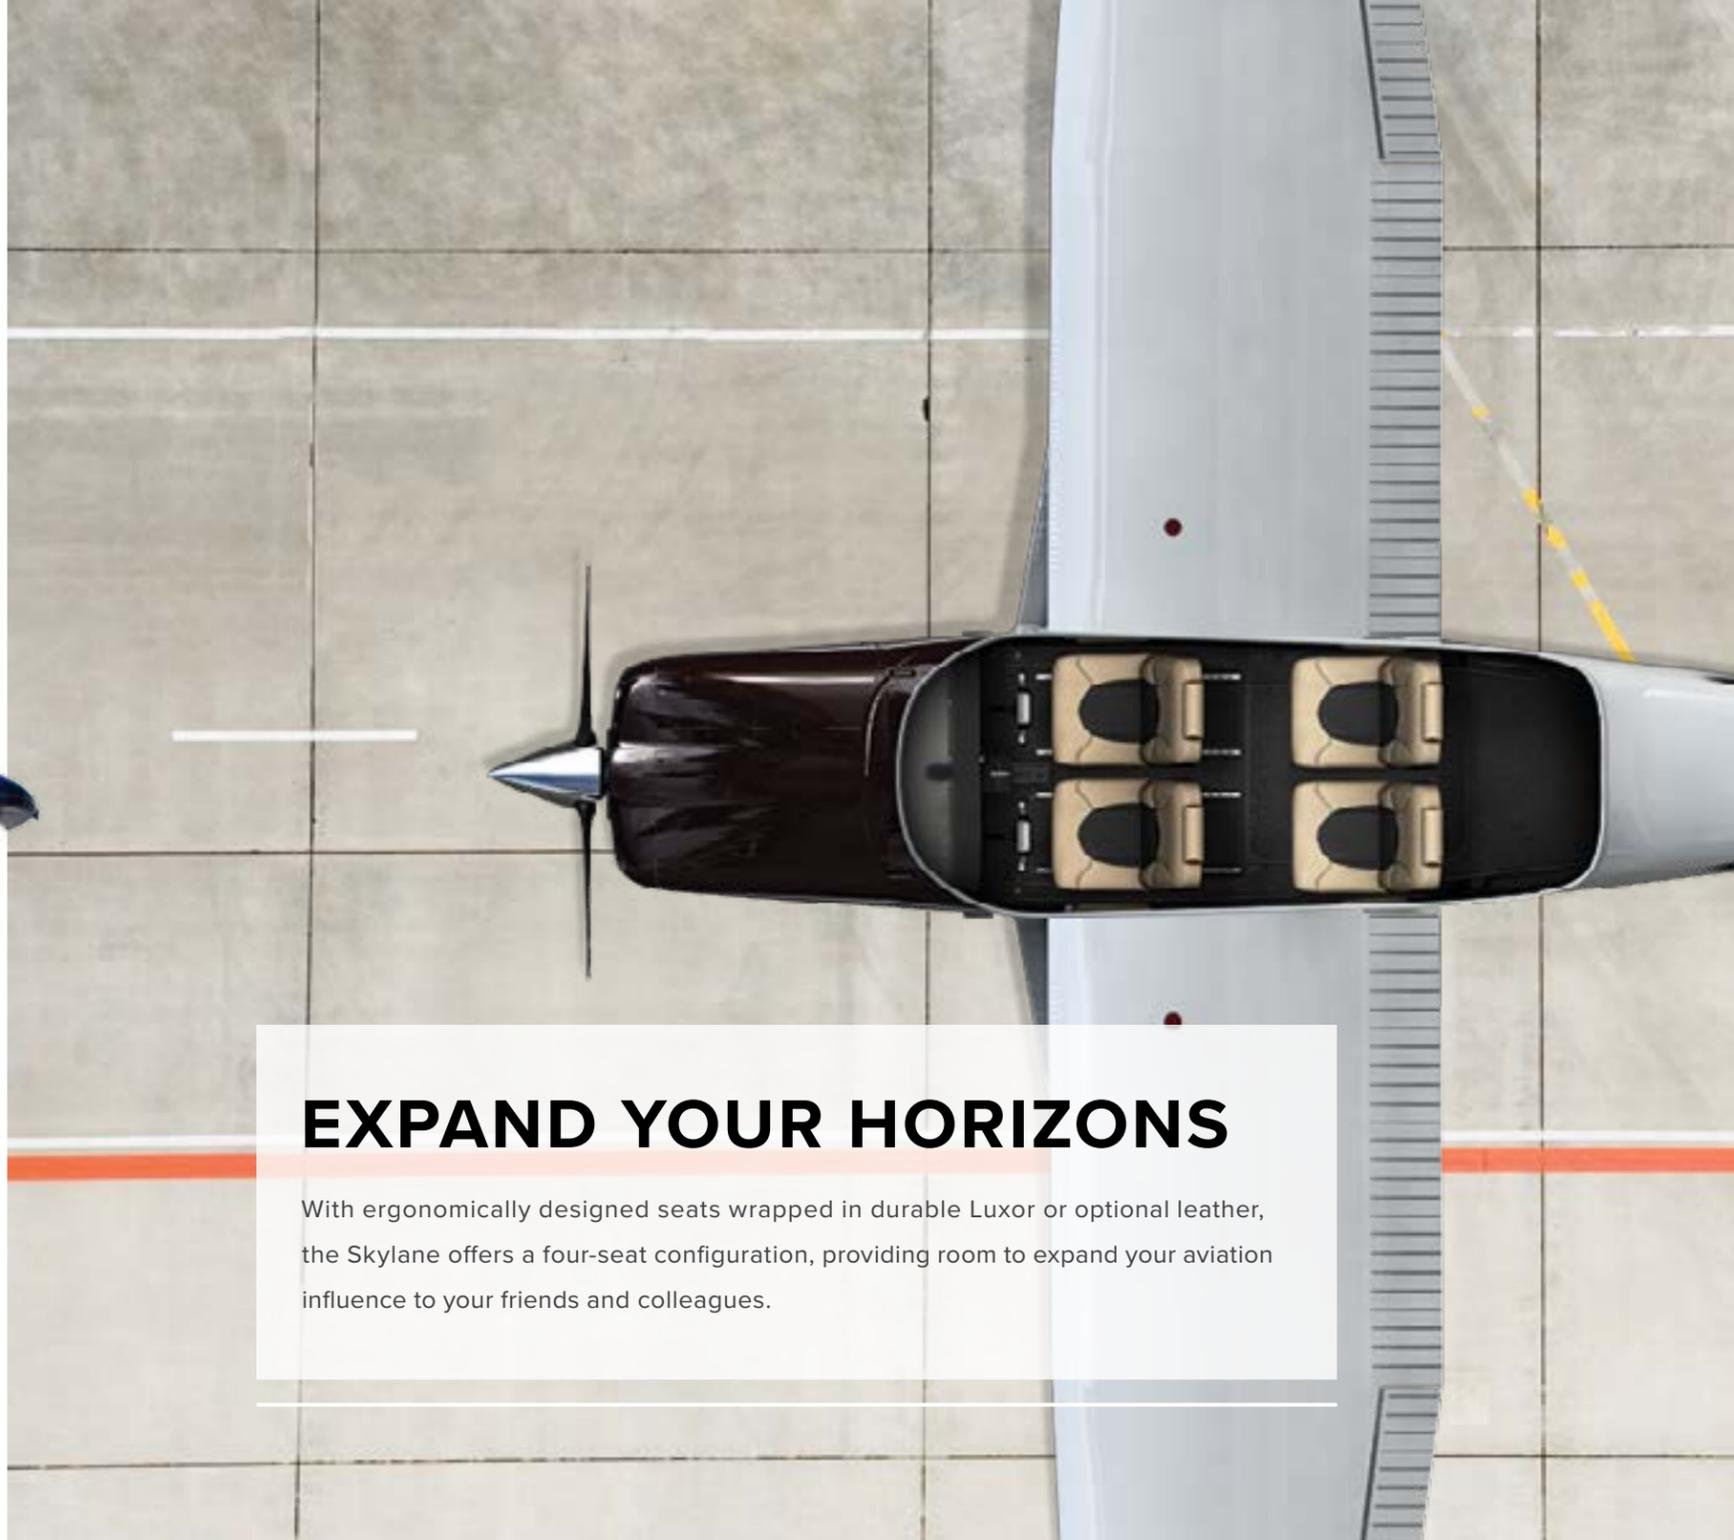

NEW FEATURES AND OPTIONS

- + Standard ADS-B Out and In
- + Optional wireless database and flight plan loading
- + Integrated VFR Sectional Charts
- + IFR High and Low Charts with Night Mode
- + Enhanced HSI features
- + COM frequency decoding
- + Vertical Situation Display
- + Selectable Visual Approaches
- + Optional Surface Watch for runway safety
- + Enhanced graphics and faster processing
- + Improved joystick with smoother panning
- + Simplified maintenance

FLY WITH CONFIDENCE WHERE FORM FOLLOWS FUNCTION

Elegant design is bold, simple, and beautiful. Every engineered part has a purpose and is crafted with evolution and wisdom that only comes from a fleet with millions of hours of operating experience. Whether you are purchasing your first aircraft or stepping up to enjoy added performance, the Skylane is the perfect tool to look at the world in a new, assured way.

EXPAND YOUR HORIZONS

With ergonomically designed seats wrapped in durable Luxor or optional leather, the Skylane offers a four-seat configuration, providing room to expand your aviation influence to your friends and colleagues.

EXTERIOR DESIGN SELECTION

Choose from several different paint combinations, and outfit your Skylane to fit your style preferences.

PROVEN PERFORMANCE

Bring your friends with more than 1,100 pounds of useful load and cruise at up to 145 knots. With the ability to use short, unimproved runways, including dirt and gravel, the Cessna Skylane is a true high-performance aircraft with more than 900 nautical miles of range. Experience class-leading capability backed by a proven track record.

SPECIFICATIONS

PERFORMANCE*

Takeoff Ground Roll	795 ft	(242 m)
Maximum Climb Rate	924 fpm	(282 mpm)
Max Cruise Speed	145 ktas	(269 km/h)
Max Range	915 nm	(1,695 km)

POWERPLANT

Manufacturer	Lycoming
Model	IO-540-AB1A5
Power Output	230 hp

WEIGHTS

Maximum Takeoff	3,100 lb	(1,406 kg)
Empty Weight	1,965 lb	(891 kg)
Useful Load	1,145 lb	(519 kg)

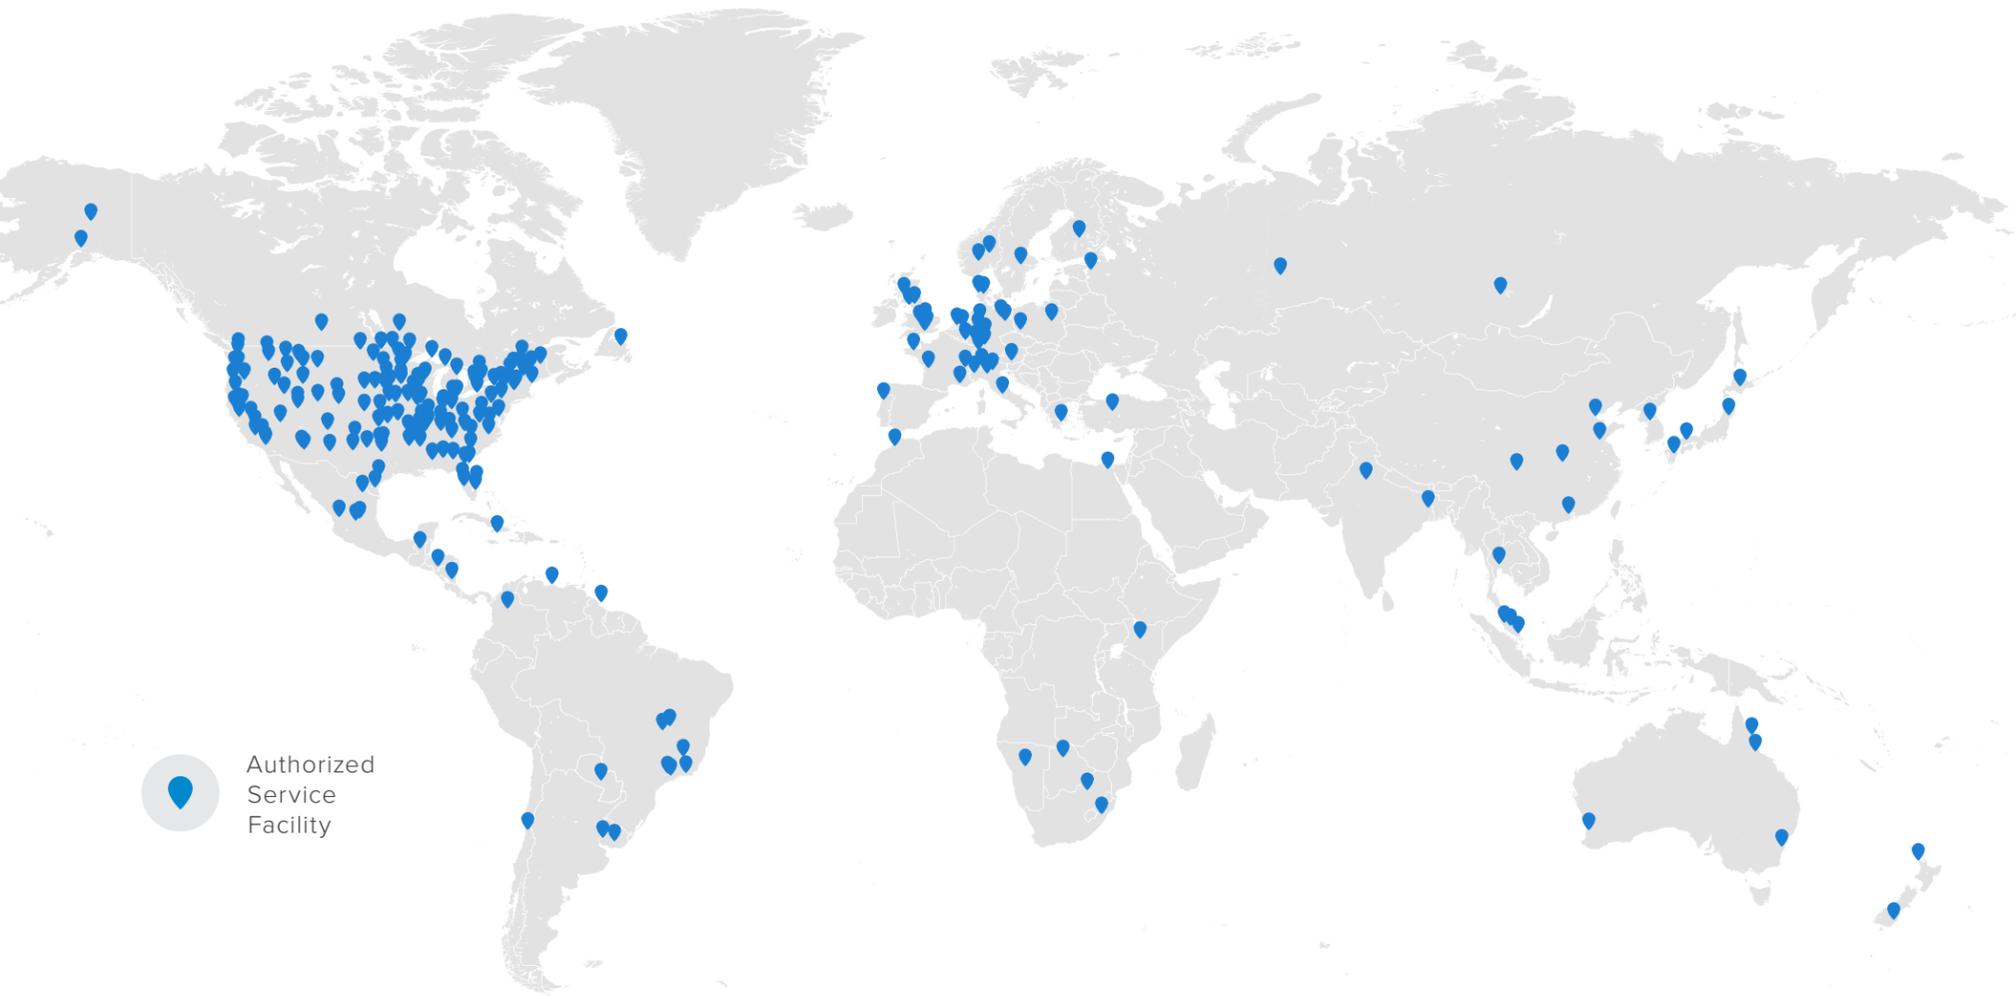

INTERIOR DIMENSIONS

Cabin Height	48.5 in	(1.23 m)
Cabin Width	42.0 in	(1.07 m)
Cabin Length	11 ft 2 in	(3.40 m)
Baggage Capacity	200 lb	(91 kg)

MAXIMUM OCCUPANTS

4

* Performance data is based on standard conditions with zero wind. Field performance assumes a level, hard-surface, dry runway. Range is based on a ferry mission with one pilot (170 lb) at 55% power with 45 minutes reserve.

THE LARGEST AND MOST CAPABLE SERVICE NETWORK

Textron Aviation's extensive engineering and manufacturing resources provide you with a worldwide network of technical support experts and maintenance solutions.

- ✔ Field service representatives from Textron Aviation are equipped with extensive technical manuals and detailed vendor documentation to answer your questions.
- ✔ More than 350 authorized service facilities around the world are uniquely qualified to service your piston aircraft.
- ✔ Our inventory carries more than \$150 million in piston parts with a 99.6 percent same-day ship rate to keep your aircraft flying.

Fly with confidence knowing you're backed by the most capable service and support network in general aviation.

TEXTRON AVIATION
PERFORMANCE SUPPORT

THE WORLD'S LEADING AIRCRAFT MANUFACTURER

Textron Aviation brings smart innovation to the market — leveraging the latest technology in our industry-leading Beechcraft®, Cessna and Hawker® aircraft — a cornerstone of 90 years of performance. Together, Cessna and Beechcraft account for more than half of all general aviation aircraft flying, having delivered more than 250,000 aircraft that exceed 100 million flight hours and operate in more than 143 countries. In the last five years, 10 new Textron Aviation aircraft products have been certified and delivered. From Citation® jets, the world's best-selling business jets, to the class-leading King Air® and Caravan® turboprops to the Cessna TTX® advanced piston performer, Textron Aviation leads the industry with the broadest product portfolio and the largest aircraft service network in the world.
